Title of the Research	“Climate Change and Sustainable Development Goals: Contribution of NITI Aayog towards Clean Energy Governance”	
Abstract of the research	According to Brundtland Commission Report “Sustainable Development is that development which meets the need of the present generation without compromising the ability for future generation”. Here it can be rightly said that development should be done in such a way, it should be harm for future generation. Now the climate change is the biggest problems for present generation. There are 17 SDGs goals. The present research may explore Goals-7, that is ‘Affordable and Clean energy. In clean energy, solar energy is the best alternative sources of energy. It can be rightly said that India has signed ‘International Solar Alliance’ with 121 countries. For the first time an international headquarter is situated in India, Haryana, Gurugram. This research may also show what are the steps the government of India has been taken to achieve goals-7.	
Progress of the research work	Now I am started to write chapter I part and collecting data related my topic.	
Journal Publication	“Alternative sources of energy in sustainable development goals: A study on solar energy” (International Journal of Management, Public Policy and Research) Vol: 2 No Special issue, DOI: https://doi.org/10.55829/ijmpr.v2iSpecialIssue.136	
ORCID No	0009-0002-4046-3387
