Title of the research topic	Legal Issues and Challenges of Domestic Violence Against Women: A Study in Western Odisha

Abstract of the research work(max.300 words)

Violence against Women is omnipresent. They are bound to suffer in many ways from birth to death. The ancient systems which prevailed in society treated the husband as the boss of the home who has the power to choose their wives even forcibly. She is just treated as role models who fixed for them and even right deviation from her role inflicts violence on her. Bundle for factors are members and also the society her. Therefore in order to stop this violence in international and national levels, many initiatives have been taken to stop this violence .But it is a matter of irony that still this giant roaring over the women. It means the women need more social and legal measures practically to be implemented not only to stop rather to uproot the disease of domestic violence from the modern society. Instead various protective measures available in India and particularly in the state of Odisha for the protection of women from the clutches of the destructive consequence of Domestic violence .
